

Senate Bill No. 83

CHAPTER 943

An act to amend Sections 1405 and 1417.9 of the Penal Code, relating to forensic testing.

[Approved by Governor October 14, 2001. Filed
with Secretary of State October 14, 2001.]

LEGISLATIVE COUNSEL'S DIGEST

SB 83, Burton. Forensic testing: post conviction.

Existing law grants a person who was convicted of a felony and is currently serving a term of imprisonment the right to make a written motion under specified conditions for the performance of forensic DNA testing. Under existing law, if a hearing is held on the motion, the judge who presided over the person's trial generally hears the motion. Existing law provides that if an indigent person files a motion for DNA testing, the court shall appoint counsel to represent the person.

This bill would provide that an indigent person may request appointment of counsel to file a motion for the performance of DNA testing by sending a written request to the court, as specified. This bill would also specify that if a hearing is held on a motion for DNA testing and the person was convicted by entry of a plea of guilty or nolo contendere, then the judge who accepted the plea will generally decide the motion. This bill would also require the court to appoint counsel to investigate and, if appropriate, file the person's motion for DNA testing and to represent the person solely for the purpose of obtaining DNA testing if the person is indigent and has not previously been appointed counsel. The court may, in its discretion, appoint counsel to an indigent person who has previously been appointed counsel. By requiring that counsel be appointed to perform additional duties, this bill would impose a state-mandated local program.

This bill would also provide that the right to file a motion for postconviction DNA testing cannot be waived.

Existing law requires that DNA evidence secured in connection with a criminal case be retained by an appropriate governmental entity, as specified. That entity may dispose of the evidence if certain criteria are met, including notification of certain persons of the intent to dispose of the biological material.

This bill would specify that all DNA evidence be retained so long as any person remains incarcerated in connection with the case. This bill

would also provide that the right to receive notice that a governmental entity intends to dispose of biological material cannot be waived.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

The people of the State of California do enact as follows:

SECTION 1. Section 1405 of the Penal Code is amended to read:

1405. (a) A person who was convicted of a felony and is currently serving a term of imprisonment may make a written motion before the trial court that entered the judgment of conviction in his or her case, for performance of forensic deoxyribonucleic acid (DNA) testing.

(b) (1) An indigent convicted person may request appointment of counsel to prepare a motion under this section by sending a written request to the court. The request shall include the person's statement that he or she was not the perpetrator of the crime and that DNA testing is relevant to his or her assertion of innocence. The request also shall include the person's statement as to whether he or she previously has had counsel appointed under this section.

(2) If any of the information required in paragraph (1) is missing from the request, the court shall return the request to the convicted person and advise him or her that the matter cannot be considered without the missing information.

(3) (A) Upon a finding that the person is indigent, he or she has included the information required in paragraph (1), and counsel has not previously been appointed pursuant to this subdivision, the court shall appoint counsel to investigate and, if appropriate, to file a motion for DNA testing under this section and to represent the person solely for the purpose of obtaining DNA testing under this section.

(B) Upon a finding that the person is indigent, and counsel previously has been appointed pursuant to this subdivision, the court may, in its discretion, appoint counsel to investigate and, if appropriate, to file a motion for DNA testing under this section and to represent the person solely for the purpose of obtaining DNA testing under this section.

(4) Nothing in this section shall be construed to provide for a right to the appointment of counsel in a postconviction collateral proceeding, or to set a precedent for any such right, in any context other than the representation being provided an indigent convicted person for the limited purpose of filing and litigating a motion for DNA testing pursuant to this section.

(c) (1) The motion shall be verified by the convicted person under penalty of perjury and shall do all of the following:

(A) Explain why the identity of the perpetrator was, or should have been, a significant issue in the case.

(B) Explain, in light of all the evidence, how the requested DNA testing would raise a reasonable probability that the convicted person's verdict or sentence would be more favorable if the results of DNA testing had been available at the time of conviction.

(C) Make every reasonable attempt to identify both the evidence that should be tested and the specific type of DNA testing sought.

(D) Reveal the results of any DNA or other biological testing that was conducted previously by either the prosecution or defense, if known.

(E) State whether any motion for testing under this section previously has been filed and the results of that motion, if known.

(2) Notice of the motion shall be served on the Attorney General, the district attorney in the county of conviction, and, if known, the governmental agency or laboratory holding the evidence sought to be tested. Responses, if any, shall be filed within 60 days of the date on which the Attorney General and the district attorney are served with the motion, unless a continuance is granted for good cause.

(d) If the court finds evidence was subjected to DNA or other forensic testing previously by either the prosecution or defense, it shall order the party at whose request the testing was conducted to provide all parties and the court with access to the laboratory reports, underlying data, and laboratory notes prepared in connection with the DNA or other biological evidence testing.

(e) The court, in its discretion, may order a hearing on the motion. The motion shall be heard by the judge who conducted the trial, or accepted the convicted person's plea of guilty or nolo contendere, unless the presiding judge determines that judge is unavailable. Upon request of either party, the court may order, in the interest of justice, that the convicted person be present at the hearing of the motion.

(f) The court shall grant the motion for DNA testing if it determines all of the following have been established:

(1) The evidence to be tested is available and in a condition that would permit the DNA testing requested in the motion.

(2) The evidence to be tested has been subject to a chain of custody sufficient to establish it has not been substituted, tampered with, replaced or altered in any material aspect.

(3) The identity of the perpetrator of the crime was, or should have been, a significant issue in the case.

(4) The convicted person has made a prima facie showing that the evidence sought to be tested is material to the issue of the convicted person's identity as the perpetrator of, or accomplice to, the crime, special circumstance, or enhancement allegation that resulted in the conviction or sentence.

(5) The requested DNA testing results would raise a reasonable probability that, in light of all the evidence, the convicted person's verdict or sentence would have been more favorable if the results of DNA testing had been available at the time of conviction. The court in its discretion may consider any evidence whether or not it was introduced at trial.

(6) The evidence sought to be tested meets either of the following conditions:

(A) The evidence was not tested previously.

(B) The evidence was tested previously, but the requested DNA test would provide results that are reasonably more discriminating and probative of the identity of the perpetrator or accomplice or have a reasonable probability of contradicting prior test results.

(7) The testing requested employs a method generally accepted within the relevant scientific community.

(8) The motion is not made solely for the purpose of delay.

(g) If the court grants the motion for DNA testing, the court order shall identify the specific evidence to be tested and the DNA technology to be used. The testing shall be conducted by a laboratory mutually agreed upon by the district attorney in a noncapital case, or the Attorney General in a capital case, and the person filing the motion. If the parties cannot agree, the court shall designate the laboratory to conduct the testing and shall consider designating a laboratory accredited by the American Society of Crime Laboratory Directors Laboratory Accreditation Board (ASCLD/LAB).

(h) The result of any testing ordered under this section shall be fully disclosed to the person filing the motion, the district attorney, and the Attorney General. If requested by any party, the court shall order production of the underlying laboratory data and notes.

(i) (1) The cost of DNA testing ordered under this section shall be borne by the state or the applicant, as the court may order in the interests of justice, if it is shown that the applicant is not indigent and possesses the ability to pay. However, the cost of any additional testing to be

conducted by the district attorney or Attorney General shall not be borne by the convicted person.

(2) In order to pay the state's share of any testing costs, the laboratory designated in subdivision (e) shall present its bill for services to the superior court for approval and payment. It is the intent of the Legislature to appropriate funds for this purpose in the 2000–01 Budget Act.

(j) An order granting or denying a motion for DNA testing under this section shall not be appealable, and shall be subject to review only through petition for writ of mandate or prohibition filed by the person seeking DNA testing, the district attorney, or the Attorney General. The petition shall be filed within 20 days after the court's order granting or denying the motion for DNA testing. In a noncapital case, the petition for writ of mandate or prohibition shall be filed in the court of appeal. In a capital case, the petition shall be filed in the California Supreme Court. The court of appeal or California Supreme Court shall expedite its review of a petition for writ of mandate or prohibition filed under this subdivision.

(k) DNA testing ordered by the court pursuant to this section shall be done as soon as practicable. However, if the court finds that a miscarriage of justice will otherwise occur and that it is necessary in the interests of justice to give priority to the DNA testing, a DNA laboratory shall be required to give priority to the DNA testing ordered pursuant to this section over the laboratory's other pending casework.

(l) DNA profile information from biological samples taken from a convicted person pursuant to a motion for postconviction DNA testing is exempt from any law requiring disclosure of information to the public.

(m) Notwithstanding any other provision of law, the right to file a motion for postconviction DNA testing provided by this section is absolute and shall not be waived. This prohibition applies to, but is not limited to, a waiver that is given as part of an agreement resulting in a plea of guilty or nolo contendere.

(n) The provisions of this section are severable. If any provision of this section or its application is held invalid, that invalidity shall not affect other provisions or applications that can be given effect without the invalid provision or application.

SEC. 2. Section 1417.9 of the Penal Code is amended to read:

1417.9. (a) Notwithstanding any other provision of law and subject to subdivision (b), the appropriate governmental entity shall retain all biological material that is secured in connection with a criminal case for the period of time that any person remains incarcerated in connection with that case. The governmental entity shall have the discretion to determine how the evidence is retained pursuant to this section, provided

that the evidence is retained in a condition suitable for deoxyribonucleic acid (DNA) testing.

(b) A governmental entity may dispose of biological material before the expiration of the period of time described in subdivision (a) if all of the conditions set forth below are met:

(1) The governmental entity notifies all of the following persons of the provisions of this section and of the intention of the governmental entity to dispose of the material: any person, who as a result of a felony conviction in the case is currently serving a term of imprisonment and who remains incarcerated in connection with the case, any counsel of record, the public defender in the county of conviction, the district attorney in the county of conviction, and the Attorney General.

(2) The notifying entity does not receive, within 90 days of sending the notification, any of the following:

(A) A motion filed pursuant to Section 1405. However, upon filing of that motion, the governmental entity shall retain the material only until the time that the court's denial of the motion is final.

(B) A request under penalty of perjury that the material not be destroyed or disposed of because the declarant will file within 180 days a motion for DNA testing pursuant to Section 1405 that is followed within 180 days by a motion for DNA testing pursuant to Section 1405, unless a request for an extension is requested by the convicted person and agreed to by the governmental entity in possession of the evidence.

(C) A declaration of innocence under penalty of perjury that has been filed with the court within 180 days of the judgment of conviction or July 1, 2001, whichever is later. However, the court shall permit the destruction of the evidence upon a showing that the declaration is false or there is no issue of identity that would be affected by additional testing. The convicted person may be cross-examined on the declaration at any hearing conducted under this section or on an application by or on behalf of the convicted person filed pursuant to Section 1405.

(3) No other provision of law requires that biological evidence be preserved or retained.

(c) Notwithstanding any other provision of law, the right to receive notice pursuant to this section is absolute and shall not be waived. This prohibition applies to, but is not limited to, a waiver that is given as part of an agreement resulting in a plea of guilty or nolo contendere.

(d) This section shall remain in effect only until January 1, 2003, and on that date is repealed unless a later enacted statute that is enacted before January 1, 2003, deletes or extends that date.

SEC. 3. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school

districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars (\$1,000,000), reimbursement shall be made from the State Mandates Claims Fund.

O
